Arsenius Purbandono
Bandung City, West Java, Indonesia | xzars009@gmail.com | **Linked In**

Flutter Developer with 3+ years of experience at the Regional Revenue Agency of West Java Province, building internal and public mobile apps for field officers. Contributed to **five Flutter apps** with modular architecture (MVC / Clean Architecture) and shipped **on-device Computer Vision** features: a YOLO plate detector, a plate-color classifier and a **custom OCR** that outperformed Google ML Kit on a locked benchmark (76% vs 56% exact match). **BNSP-certified Senior Mobile Programmer** (Nov 2025).

Work Experience

Mobile Developer - Regional Revenue Agency of West Java Province
February 2023 - Present | Bandung City, West Java, Indonesia

- Built and maintained **Flutter apps** for vehicle and tax tracing (**ATOS PAMOR, Panah Pasopati**), internal operations (**SAKTI JAWARA**), water-tax recording (**SEMAR**) and heavy-equipment tax (**Pajak Alat Berat**), organized as **multi-package** codebases (4-19 packages) with **MVC** and **Clean Architecture**.
- Integrated **REST APIs (Dio)**, **Hive**, **Firebase** (Analytics, Crashlytics), GPS and maps, PDF reports and **device SDKs** (cameras, thermal printers, barcode scanning).
- Delivered updates with **Shorebird code push** and **OTA APK**; hardened the OTA flow (HTTPS-only, newer-version check, SHA-256 support) and restricted debug tools to non-release builds.
- Built an **on-device ANPR pipeline**: **YOLO** plate detector, plate-color classifier (**MobileNetV2**) and a **custom CNN+CTC OCR** (1.1M parameters, 2.3 MB TFLite) running offline in Flutter.
- Raised OCR exact-match accuracy from **56% to 76%** (Google ML Kit with post-processing vs custom OCR) on a locked 494-plate offline test set, using leak-free evaluation and 30k synthetic training images; removed ML Kit, cutting **APK size by about 30 MB**.
- Improved performance and UX on low and mid-range phones: image cropping moved off the UI thread (about 4x faster in benchmark), redundant camera restarts removed (patched native Android plugin, Kotlin), and **widget tests** for layout overflow across screen sizes and themes.
- Collaborated with **cross-functional teams** in an **Agile Software Development Life Cycle (SDLC)** environment.

Intern Mobile Application Developer - PT Safepedia Global Teknologi
August 2022 - December 2022 | South Jakarta, Jakarta, Indonesia

- Contributed to the development of an **internal application for PT Antam's** mining operators.
- Developed **native Android applications** using the **Kotlin programming language**.
- Applied software **architecture** concepts **(Clean Architecture)**.
- Performed **bug fixing** and **implemented new features** on the system.

Education

- Universitas Pendidikan Indonesia | Information System and Technology Education

Skills

- Mobile Development: Flutter (3+ years), Kotlin (5 months), Java (5 months)

(2019 - 2023)
- SMKN 1 Simpang Empat | Multimedia (2016 - 2019)

- Flutter Stack: go_router, Bloc, Provider, get_it, Dio, Hive, Freezed, Firebase, Shorebird, OTA
- AI & Machine Learning: Python, PyTorch, TensorFlow, Keras, YOLO (Ultralytics), OpenCV, TensorFlow Lite, ONNX
- Tools & Platforms: Git, GitHub, Google Colab

Certifications

BNSP Senior Mobile Programmer (*26 November* 2025)
BNSP Junior Mobile Programmer (Pemrogram Mobile Pratama) (*19 August* 2025)
EF SET English Language Certificate - 54/100, B2 Upper Intermediate (*8 June* 2024)
Study Independent Mobile Application and Cloud Development - Nongsa Digital Park / Infinite Learning (*March - July* 2022)
Study Independent Game Development - Agate International (*August* 2021 - *January* 2022)

Organization Experience

Community Manager - Web3 Developer Indonesia (*October 2024 - December 2024*)
- Created engaging **graphics content** for social media using **Canva**.
- Wrote **educational content** for Twitter and Discord to support learning.
- **Proposed partnerships** with other communities to expand our network.
- Developed **creative content** strategies for Twitter.

Chairperson of the Legislative Body - HIMA PSTI (January - December 2021)
- **Led the Legislative Body** in policy-making and governance for HIMA PSTI.
- **Supervised all HIMA PSTI events** as the Steering Committee Supervisor.
- **Developed and discussed regulations and statutes** to guide organizational operations.
- **Collaborated with other stakeholders** to align legislative efforts with strategic goals.
